

Your Gifts Made it Possible for Nevin to Enjoy Nature

Melissa Kalicicki, Annual Gifts Officer

A naturalist and published poet, Nevin learned that his nursing home was closing. He wasn't sure where he was going to live. Because of your gift to Welsh Mountain Home, he doesn't have to fear where he will live anymore. He now has an affordable place to live where he can cultivate his own wildflower garden and watch the birds outside his window every day.

Early in life, he developed a passion for the outdoors. He went on adventures, exploring the mountains in his Jeep, and took many photos which now decorate his room. His quiet demeanor makes the beautiful words of his poetry resonate even more.

Nevin has lived most of his life in solitude, preferring that to

being with people. However, he suffered from severe depression to the point where he needed to find help.

Thanks to you, Nevin has an affordable place at Welsh Mountain Home. His strong faith and access to counseling services have helped him become stronger and healthier. He attends church and interacts with others, especially at mealtimes.

"I bought some wildflowers and planted them in the garden here. I like watching the birds from my window. The other day, a huge flock of robins landed on the lawn, and I was so excited and surprised because they were early for the season," Nevin said.

Thank you for making it possible for Nevin to have an affordable home where he can enjoy the privacy of his own room and also experience the beauty of the outdoors that he loves so much.
