Landis Communities Report May 5, 2021

Today's report does not include the usual charts, as there has been very little change from last week. There has been a small increase in overall vaccination rate of team members to 55%. This will slightly increase again later this week, after the scheduled vaccine clinic by Phoebe Pharmacy. Other vaccination rates remain unchanged.

As a reminder, vaccines are available to Landis Communities residents, clients and team members through Phoebe Pharmacy, located on the Landis Homes campus. Vaccination clinics at Phoebe Pharmacy are held the first and third Thursday of each month from 1:30-3:30 p.m. To schedule an appointment, ask questions or voice concerns, please contact Jenny Sheckells at jsheckells@landis.org or 717.381.3573.

We are very grateful no new cases of COVID-19 were reported April 28 – May 4, 2021 among residents, clients or team members. Sadly, one Healthcare resident reported as positive last week, has passed away.

Governor Wolf announced this week that COVID-19 mitigation orders, except masking, will be lifted on Memorial Day, Monday, May 31, 2021. The current order requiring Pennsylvanians to wear masks will be lifted when 70% of PA residents age 18 and older are fully vaccinated. Until then, face coverings should be worn in accordance with the latest guideline from the Centers for Disease Control and Prevention (CDC). See the reverse side of this report for a graphic that depicts these recommendations.

On the Landis Homes campus, the residential living reopening plan will continue to consider these guidelines, along with the Lancaster County COVID-19 positivity rate, in determining next steps for allowing visitors in common spaces. The current rate of 7.7% indicates a medium risk of transmission.

Choosing Safer Activities

	Unvaccinated People	Your Activity	Fully Vaccinated People
		Outdoor	
Safest		Walk, run, or bike outdoors with members of your household	
		Attend a small, outdoor gathering with fully vaccinated family and friends	
		Attend a small, outdoor gathering with fully vaccinated and unvaccinated people	
Less Safe		Dine at an outdoor restaurant with friends from multiple households	
Least Safe		Attend a crowded, outdoor event, like a live performance, parade, or sports event	
		Indoor	
Less Safe		Visit a barber or hair salon	
		Go to an uncrowded, indoor shopping center or museum	
		Ride public transport with limited occupancy	
		Attend a small, indoor gathering of fully vaccinated and unvaccinated people from multiple households	
Least Safe		Go to an indoor movie theater	
		Attend a full-capacity worship service	
		Sing in an indoor chorus	
		Eat at an indoor restaurant or bar	
		Participate in an indoor, high intensity exercise class	

Get a COVID-19 vaccine

Prevention measures not needed

Take prevention measures

Fully vaccinated people: wear a mask

Unvaccinated people: wear a mask, stay 6 feet apart, and wash your hands.

- Safety levels assume the recommended prevention measures are followed, both by the individual and the venue (if applicable).

- CDC cannot provide the specific risk level for every activity in every community. It is important to consider your own personal situation and the risk to you, your family, and your community before venturing out.
