## **Landis Communities Update**

**March 23, 2020**

### ***A message from Larry Zook, President and CEO***

Residents, families and team members across Landis Communities are experiencing very challenging times. I am reminded each day of our mission – to honor and enrich the lives of residents/clients and their families in a community of Christ-like love – as I see the care and concern we have one for another. Thank you for living out our mission during this difficult time. It is what brings us together in community. My prayers, and deep appreciation, are with you. I pray for strength, health and God's enduring peace for you and your family in this journey.

### **Reminders for Your Health and Safety**

**Symptoms of COVID-19** – this virus mirrors the signs of a respiratory illness with fever, cough and shortness of breath as well as flu-like symptoms of head and body aches. If you experience these symptoms, do not leave your home. Call your doctor or if you live on the Landis Homes campus, call the residential nurse.

**Testing** – the nurse or your doctor will give you instructions for where and how to be tested. You will not be tested at one of the community drive-up testing locations without a referral from a physician.

**Please stay home** – staying home reduces the risk to everyone with whom you come in contact.

### **A few other things to share...**

**Pathways Institute for Lifelong Learning®** – Pathway classes are now on hold until at least April 17. Continue to access the free, online resources shared on March 20, 2020, and watch for information on recorded presentations of Pathways courses.

**Pharmacy** – those on the Landis Homes campus are being asked to call in their prescriptions to Phoebe Pharmacy rather than bringing them in.

**Ways to help** – many are responding to the request to make masks and gowns – thank you! We will keep you informed of other supply needs and ways to help financially. For now, your continued prayers are much appreciated.
